

WORKCENTER

Tool trolley

Application possibilities

- A new combination of materials, polypropylene and metal
- New design, top drawer with removable tray, easily separated at the press of a button to be used on its own
- Drawer runners on ball bearings for smooth sliding and greater load capacity
- Telescopic aluminium handle offers a more secure grip
- Large wheels with tyre for better manoeuvrability, comfortable, silent and steady
- The base and drawer open easily, giving you easy access to all spaces in the WORKCENTER
- Padlock closure giving you maximum security
- New design
- Weight 11.5kg
- V-groove on lid for cutting of materials on site
