

Fibre concrete spacer

Kiwa-tested spacer for the horizontal reinforcement of several concrete covers depending on position

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form
- 1 sack = 250pcs / 1 pallet = 40 sacks

Material	Fibre-reinforced concrete
Cutting width	24 mm

Length	Concrete cover	Product weight (per item)	Art. no.
35 mm	35 mm, 40 mm, 50 mm	89 g	5396 240 350

Details/Application

Particularly suitable for exposed concrete construction and for use in watertight concrete.
