

# CORDLESS HAMMER DRILL ABH 18 COMPACT M-CUBE®

**Compact, powerful and brushless cordless hammer drill for moderate drilling and light-duty chiselling work, developed by Würth to meet the requirements of craftsmen.**

## Convenient, effortless work

Highly compact and ergonomic design with anti-vibration function

## Long motor service life

Efficient, low-maintenance, brushless EC motor with power reserves

## Continuous monitoring of the motor

If the motor is overloaded or jammed, the electronic motor protection function switches the motor off ahead of time.

## Fast adaptation to the respective application

It is possible to switch easily and quickly between hammer drilling, drilling and chiselling using the function selector switch.

## Including quick-release chuck

The SDS-plus mount can be replaced with the supplied quick-action drill chuck quickly, easily and without the need for tools.

## Low-dust work

Ensure low-dust work with the optional dust extraction

## Warranty

2 Years Warranty on manufacturing and material defects. Excluded are damages caused by improper use, overloading or failure to observe the operating instructions. 6 months Warranty on batteries. The current WÜRTH MASTER warranty conditions must be observed.

<b>Nominal voltage</b>	18 V/DC
<b>Min./max. idle speed</b>	0-1400 U/min(rpm)
<b>Min./max. impact rate</b>	0-4800 U/min(rpm)
<b>Impact energy</b>	2.5 J
<b>Tool holding device</b>	Quick-change holder
<b>Weight of machine with rechargeable battery</b>	3.7 kg

### Electronic motor protection function:

Continuous motor monitoring increases its service life, since the motor is shut off quickly in the event of overloading, overheating or a jam.

### Function selector switch:

Quick and easy switching between hammer drilling, chiselling and drilling. Additional adjustment for positioning the chisel.

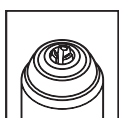

Longer working life of the EC-motors, low-maintenance, as carbon brushes do not have to be changed. More efficient and powerful motor in a smaller size.

### Anti-vibration system:

Significantly dampens harmful vibrations and thus allows longer operating times for the user.

### Drill chuck:

13 mm solid metal drill chuck with carbide jaws for optimal retention of the clamped tool.
