

## **Cordless impact drill driver ABS 18 POWER COMBI M-CUBE®**

**Very powerful, handy cordless impact drill driver with connectible drill driver mechanism and a torque of 140 Nm, developed by Würth to meet the requirements of craftsmen**

### **Fast adaptation to the respective application**

The function selector switch allows easy, fast switching between screwdriving, drilling and impact drilling.

### **Robust design**

For tough conditions on construction sites, all components can also withstand a fall from normal working heights.

### **Continuous motor monitoring**

The electronic motor protection function switches the motor off ahead of time in the event of blockage, overloading or overheating.

### **Long motor service life**

Efficient, low-maintenance, brushless EC motor with power reserves. Also maintains a more stable speed curve under load.

### **Maximum service life and low wear**

- 13 mm Röhle metal drill chuck with soldered carbide clamping jaws
- Electronic signal switch

### **Well-lit working area**

LED lamp on the battery block

### **2 Years WÜRTH MASTERPLUS Warranty for wear damage and replacement of batteries and chargers**

The current WÜRTH MASTERPLUS warranty conditions must be observed.

Excluded are damages caused by improper use, overloading or failure to observe the operating instructions.

Function selector switch:  
Quickly and easily switch between screw-driving, drilling and impact drilling.

24-stage adjustment:  
Precise and effective working through ideal torque setting and optimum throughput.

## Details/Application

Electronic motor protection function:

Continuous motor monitoring increases its service life, since the motor is shut off quickly in the event of overloading, overheating or a jam.

Brushless motor:

Longer working life of the EC-motors, low-maintenance, as carbon brushes do not have to be changed. More efficient and powerful motor in a smaller size.

Drill chuck:  
13 mm solid metal drill chuck with carbide jaws for optimal retention of the clamped tool.
