

Cordless application gun AKP 18-600 M-CUBE

Illustration only

Powerful 18 V application gun developed by Würth to meet the needs of tradespeople.

Durable metal gearbox and overload protection

Avoids motor blockages with hardened material.

Easier to use with conversion set

Suitable for 400-ml and 600-ml bags. With the pressure plate art. 5700202004 cartridges can also be processed. The conversion set means that the tube can be shortened for improved convenience.

Automatic decoupling of the push rod

Prevents dripping by momentarily decoupling the push rod after the trigger is released, thus ensuring a clean finish for each bead.

Speed control for the optimum application speed even with highly viscous media

The speed adjustment wheel, sensitive trigger and high application power enable even highly viscous media to be applied easily, cleanly and precisely.

Warranty

2 Years Warranty on manufacturing and material defects. Excluded are damages caused by improper use, overloading or failure to observe the operating instructions.

2 Years Warranty on batteries. The current WÜRTH MASTER warranty conditions must be observed.

Type description	AKP 18-600
Nominal voltage	18 V/DC
Pressing force	5000 N
Weight of machine with rechargeable battery	2.3 kg

Number of rechargeable batteries/batteries	Rechargeable battery/battery capacity	Included in delivery	Art. no.	P. Qty.
0 PCS	0 Ah	Batteries not included; additional accessories not included	5701 410 000	1

Number of rechargeable batteries/batteries	Rechargeable battery/battery capacity	Included in delivery	Art. no.	P. Qty.
2 PCS	2 Ah	With 2 x 2 Ah batteries; additional accessories not included	5701 410 005	1

Details/Application

Suitable for medium- to high-viscosity adhesives and sealants from 310-ml cartridges and 400-ml and 600-ml bags. Ideal for window adhesive.

High application power with precise feed speed:

The speed adjustment wheel, sensitive trigger and high application power of 5 kN enable even highly viscous media to be applied easily, cleanly and precisely.

For universal use:

With optional accessories, the cartridge gun can be ideally matched to the various containers. This makes it easy to use 600/400 ml bags and 310 ml cartridges.

Electronic motor protection function:

Continuous motor monitoring increases its service life, since the motor is shut off quickly in the event of overloading, overheating or a jam.

Robust metal gearbox with automatic decoupling:

Durable and robust metal gearbox, which stops the push rod momentarily due to automatic decoupling, thus preventing the sealant from running/dripping.
