

Cordless hammer drill ABH 18 COMPACT M-CUBE

Illustration only

Compact, powerful, brushless cordless hammer drill for medium-heavy drilling and light chiselling work

Convenient, effortless work

Highly compact and ergonomic design with anti-vibration function

Long motor service life

Efficient, low-maintenance, brushless EC motor with power reserves

Continuous monitoring of the motor

If the motor is overloaded or jammed, the electronic motor protection function switches the motor off ahead of time.

Fast adaptation to the respective application It is possible to switch easily and quickly between rotary hammer drilling, drilling and chiselling using the function selector switch.

Including quick-release chuck

The SDS-plus mount can be replaced with the supplied quick-action drill chuck quickly, easily and without the need for tools.

Low-dust work

Ensure low-dust work with the optional dust extraction

Warranty

2 Years Warranty on manufacturing and material defects
Excluded are damages caused by improper use, overloading or failure to observe the operating instructions.
6 months Warranty on batteries.

The current WÜRTH MASTER warranty conditions must be observed.

Excluded are damages caused by improper use, overloading or failure to observe the operating instructions.

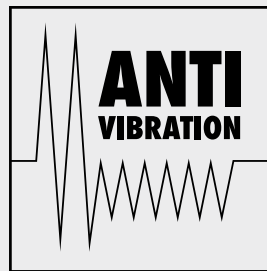

Nominal voltage	18 V/DC
Min./max. impact rate	0-5500 1/min
Impact energy	2.4 J
Tool holding device	Quick-change holder
Min./max. recommended drilling diameter in concrete	6-18 mm
Max. drilling diameter in concrete	26 mm
Max. drilling diameter in steel	13 mm
Length	320 mm
Height	220 mm

Number of batteries/battery capacity	Min./max. idle speed	Weight of machine with rechargeable battery	Art. no.	P. Qty.
0 x 0 Ah	0-1400 1/min		5701 432 000	1
2 x 5 Ah	0-1400 rpm	3.84 kg	5701 432 005	1

Details/Application

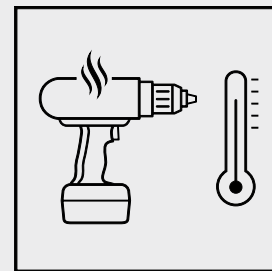

Anti-vibration system:

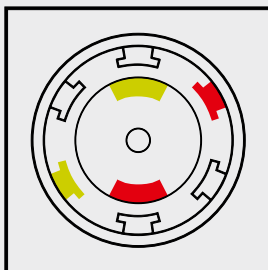

Significantly dampens harmful vibrations and thus allows longer operating times for the user.

Electronic motor protection function:

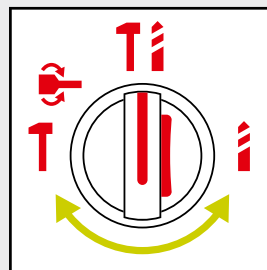

Continuous motor monitoring increases its service life, since the motor is shut off quickly in the event of overloading, overheating or a jam.

Brushless motor:

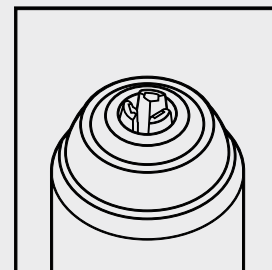

Longer working life of the EC-motors, low-maintenance, as carbon brushes do not have to be changed. More efficient and powerful motor in a smaller size.

Function selector switch:

Quick and easy switching between rotary hammer drilling, chiselling and drilling. Additional adjustment for positioning the chisel.

Drill chuck:

13 mm solid metal drill chuck for use with commercially available shank, such as cylinder and hexagon shank.
