

Angle grinder EWS 10-125-E COMPACT

Compact 1,000-watt angle grinder with ideal balance of power and ergonomics. Ideal for light- to medium-duty grinding and cutting work, such as deburring

Constant electronics

Rotation speed remains constant, even under load.

6-stage speed control

Allows the user to adjust the speed to suit the application.

Restart protection

Prevents accidental start-up after a power interruption.

Recoil protection

Mechanical decoupling prevents recoil if the disk becomes stuck.

Overload protection and soft-start

The service life of the machine is considerably increased.

Quick-adjustable protective hood

The hood allows for tool-free adjustment.

Easy to handle

Good balance of power and weight enables comfortable working even over long periods.

2 Years WÜRTH MASTERPLUS Warranty for wear damage

The current WÜRTH MASTERPLUS warranty conditions must be observed.

Nominal voltage	230 V/AC
Min./max. frequency	50/60 Hz
Protection class	Protection class II/protective insulation
Power input	1000 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.1 kg
Cable length	4 m
Functions	Speed electronics, Speed adjustment wheel, Restarting protection, Soft start, Recoil protection, Overloading protection, Constant electronics, Quickly adjustable cover
