

HKP 225-E COMPACT hot glue gun

Powerful hot glue gun, ideal for all installation, repair, fixing and decoration work
Individual adjustment of the processing temperature depending on the adhesive and application means a wide range of applications

- The HKP 225-E COMPACT is a powerful hot glue gun, which is ideal for installation, repair, fixing and decoration work
- The individual temperature control means the processing temperature can be adjusted depending on the adhesive and application, enabling a wide range of uses
- Ergonomic design ensures comfortable and fatigue-free working over long periods of time
- The sturdy base ensures safe storage of the gun, ideal for long-term professional use
- Precise application of the adhesive due to temperature adjustment to the exact degree, which protects the adhesive and delivers optimal results
- LED status indicator clearly shows when the ideal working temperature has been reached, which supports efficient and safe working
- Optimised power ensures quick heating up and continuous performance in operation

Nominal voltage	230 V
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Power input	200 W
Min./max. melting temperature	130 to 230 °C
Min./max. flow rate per weight	0-1200 g/min
Length x height	76 x 205 mm
Weight of machine	465 g
Cable length	350 cm

2-year Würth power tool guarantee on wear and tear damages.

The guarantee is subject to the current terms and conditions, which must be followed.

2 Years Warranty

on issues of material and production

Art. no. 5707 300 0

P. Qty.: 1

Details/Application

ideal for all installation, repair, fixing and decoration work.

Notice

Supplied in a black case. The nozzle is pre-assembled and the cable is also supplied.
