

## Druckfix pneumatic application gun

**Powerful and lightweight pneumatic application gun for applying products in bag goods. Ideally suited for adhesives and sealants with high and low viscosities.**

**Lightweight, compact and ergonomic design**

**Rotary pressure controller on handle for slow and fast extrusion**

Additional fine regulation of the flow speed via trigger.

**Optimal mobility**

Damper on the quick-pull valve

**Completely closed housing**

Better protection of components e.g. the air supply pipe and easy cleaning.

**2 Years WÜRTH MASTERPLUS Warranty for wear damage**

The current WÜRTH MASTERPLUS warranty conditions must be observed. Excluded are damages caused by improper use, over-loading or failure to observe the operating instructions.

Suitable for	300/600 ml bag
Flow capacity	7.2 l/min
Length	445 mm
Connection thread	1/4 inch
Weight of machine	0.95 kg

**Art. no. 0703 891 600**

P. Qty.: 1

**Individually boxed**

## Details/Application

## Notice

The average consumption for pneumatic application guns is approx. 7.2 litres/minute. Caution: The maximum working pressure for applying sealants is 6 bar.

The usage instructions are recommendations based on the tests we have conducted and based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
