

Light metal spirit level construction

Lightweight design

Excellent readability and long service life

- Acrylic glass level block with permanently printed marking lines in the bubble

No liquid discolouration, maximum precision with fluctuating temperatures

- Fluorescent bubble liquid, highly resistant to UV radiation

Very easy to clean

- Very smooth surface due to fine powder coating in silver

Robust design with high measurement accuracy

- The shock-resistant end caps protect the spirit level profile from deforming
- The spirit level has a measurement accuracy at a normal position of $0.029^\circ = 0.5 \text{ mm/m}$

Height (H)	50 mm
Width (B)	20 mm
Measuring accuracy (per length)	0.5 mm/m
Degrees measuring accuracy	0.029 degree

Length (L)	Art. no.	P. Qty.
40 cm	0714 644 434	1
50 cm	0714 644 435	1
60 cm	0714 644 436	1
80 cm	0714 644 438	1
100 cm	0714 644 440	1
120 cm	0714 644 442	1
150 cm	0714 644 445	1
180 cm	0714 644 448	1
200 cm	0714 644 450	1
