

DWM 350 digital protractor/level inclinometer

Short digital protractor/level inclinometer with 2 vials and digital readout

No inaccurate measurements

- Horizontal and vertical vials prevent placing at an incline

Easy to read

- Large, easy-to-read digital display
- Activatable backlight for use in low-light conditions

Easy handling

- Reset function for zero-setting in any position
- Hold function saves any measured value on the display, even when repositioning the protractor
- The last value is displayed the next time the protractor is switched on
- Simple switching from angle measurement to inclination measurement by pressing the power button twice (only for art. no. 071564193)

Long service life

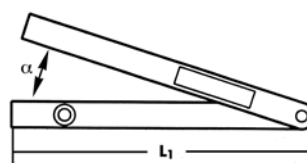

- Highly precise aluminium measuring jaws
- Hard-wearing red powder coating

Ideal for tool cases

- Small jaw length allows easy transport

Number of rechargeable batteries/batteries	2 PCS
Rechargeable battery/battery permanently installed	Yes
Material	Aluminium
Colour	Red

Limb length (L1)	Min./max angle measuring range (α)	Surface	Product weight (per item)	Art. no.	P. Qty.
348 mm	0-185 Degree	Aluminium FINISH	278 g	0715 641 91	1
350 mm	0-180 Degree		440 g	0715 641 93	1

Details/Application

For various applications, such as construction, assembly, metalworking and mechanical engineering

Instructions

Press the power button twice (only for art. no. 071564193) to switch from angle measurement to inclination measurement

Notice

Inclination measurement in % only for art. no. 071564193
