

## JUMP STARTER, 12-V LI-ION, BOOSTER PRO

**Professional, powerful jump starter. Under normal external conditions, starts all vehicles with an on-board voltage of 12 V.**

### Quality and performance in a compact design

- Use of high-quality materials and components.
- Excellent performance values thanks to high-quality Li-ion battery, thick cables and solid clamps.
- Handy format thanks to the Li-ion technology and well-thought-out design.

### User-friendly and multifunctional

- Very simple to operate – connect, switch on, start.
- LED display for checking the charge status of the internal battery.
- Charging via USB possible using a socket or cigarette lighter connector.
- Can be used as a power bank thanks to USB output
- 7-mode LED light

### Safe and reliable

- Protected against polarity reversal, sparks, overcharging, overvoltage and overheating.
- Compliance with all relevant standards

### Scope of delivery

- Li-ion Booster Pro
- USB cable
- Adapter 230 V USB socket
- 12 V USB cigarette lighter adapter
- User handbook
- Storage bag

- **Type description:** Li-ion Booster Pro
- **Nominal voltage:** 12 V/DC
- **Nominal current:** 600 A
- **Max. current:** 2000 A
- **Rechargeable battery/battery capacity:** 5000 mAh
- **Rechargeable battery/battery permanently installed:** Yes
- **Wire cross section:** 13.3 mm<sup>2</sup>
- **Suitable for max. cubic capacity:** 3 l
- **Display:** LED
- **Cable length:** 370 mm
- **Material of the housing:** Plastic
- **Weight:** 1.4 kg
- **Height:** 64 mm
- **Width:** 252 mm
- **Depth:** 132 mm
