

MOBILE STARTING ASSISTANCE 12V

Mobile starting assistance with
12V wiring on-board power systems.

- Manual On/Off Switch.
- Reverse polarity alarm.
- Protection against voltage peaks.
- Overload protection when starting up.
- Built in Safety fuse.
- Short-circuit-proof (protection of internal battery via high-current fuse.)
- Fully insulated, Heavy duty angle clamps with connecting teeth in copper/brass plates.
- 100% Flexible copper cables.
- Battery charge indicated via LED lamps.
- Smart charger 3.8A

Art. No.	7721112
Operating voltage	12V DC
Starting current	850 A
Peak current	2.500 A
Battery type	AGM
Internal battery	1 x 22 AH
Cable length	1320 mm
Material of Housing	ABS
Weight	12 Kg
Dimensions (L x W x H)	330 x 230 x 380 mm

Art. No.	Description
7721238	Smart Battery Chargers
70800714	Clamps for Smart
70800715	Cigar Socket Smart
70802187	Car Charger Cable 12V
7720704	Red Curve Lamp with Fuse
7720706	Black Curve Lamp with LED
70800860	Fuse
7729322	Battery for Booster - 12V - 760A
