

LIFELINE ROPES. 10 METERS

Features:

- 12mmØ vertical lifeline ropes of 10 meters, with steel threaded carabiner and thimbles.
- Polyester braided rope to be used with WIND device. 899032720
Minimum resistance 22KN.

Details/Application

In work with vertical displacements with a risk of falling, holding the user at each point of the rope by means of the WIND sliding fall arrest device. Important note. Lifeline ropes are not considered PPE in themselves and must always be used with sliding fall arrest devices according to EN353-2. They should therefore never be used directly to the harness, except by means of the sliding fall arrest device (WIND).
