Description

The brennenstuhl@Connect WiFi smoke and heat detector WRHM01 in white lets you warn early warning of fire - The combination of smoke detection and heat sensor detects a fire reliably and quickly. Through the brennenstuhl@Connect app, you will be informed immediately and everywhere via push notification on your smartphone. If you are outside or just traveling, quickly let acquaintances or neighbors see what's going on. The WiFi smoke alarm and heat detector can be easily and inconspicuously installed in your own four walls thanks to mounting materials. In addition, the WIFI smoke detector is compatible with routers of any brand and also does not require a hub. When connecting, make sure to select the 2.4 GHz radio frequency. The WLAN smoke detector also convinces with the following features:

- Tested according to EN 14604
- Penetrating alarm signal 85 dB
- Signal tone at low battery level
- Including batteries 2x AA/LR6/ Mignon

Technical data

Height: 3,50 cm

Length: 12 cm

Weight: 0,22 kg

Width: 12 cm

Capacity: 2.300 Ah

Battery technology: Alkaline

Voltage: 1,50 V

Number of cells: 2

Battery type: Mignon AA LR6

Colour: white

Compatibility: brennenstuhl@Connect

Radio frequency: 2.4 GHz

Wireless range: 30 m

Degree of protection (IP): IP20

Art. no. 981 129 009

P. Qty.: 1
