

## Standardized Thread Filters For Half Face Mask

Filter type	Hazardous material	Application	Art. no.	Outer Box Qty.	Certifications
A1P3	Organic Gases and Vapors Class 1 and Particles Class 3	<p>Painting and decoration (spray paint, solvents, varnishes, resins...)</p> <p>Manufacturing (vehicles, ships, household appliances, dyes and pigments, adhesives, food)</p> <p>Maintenance with the presence of organic mists and organic substances</p> <p>Industry (organic fumes and vapors, organic chemical processes...)</p> <p>Agriculture and Gardening (manure, organic handling, pesticides...)</p> <p>Livestock, Cleaning with solvents..</p>	899174011	72	EN 14387 A1P3
A1	Organic Gases and Vapors Class 1	<p>Outdoor painting and decoration, Manufacturing (vehicles, ships, dyes and pigments, adhesives, resins, acetates...), Maintenance with presence of organic matter (bad odors, fishing, gasoline, ethyl alcohol...).</p>	899 174017	80	EN 14387 A1
ABEK1P3	Organic and Inorganic Gases and Vapors, Acid Gases and Ammonia Class 1 and Class 3 Particles	<p>Industry (Metal, Foundries, Organic and inorganic chemical industry, Pharmaceutical, ..),</p> <p>Agriculture (Agrochemical products, phytosanitary products, herbicides, fumigation...),</p> <p>Fishing (fish farms, processing...),</p> <p>Maintenance (Disinfection, domestic and industrial cleaning, sodium hypochlorite...),</p> <p>Industrial Maintenance, Food Maintenance, Manufacturing (Chemistry, ships, cars, Refrigeration Equipment, household appliances, hydrochloric acid, Nitric Sulfide, Sulfuric...).</p>	899 174014	72	EN 14387 ABEK1P3

## Standardized Thread Filters For Half Face Mask

Filter type	Hazardous material	Application	Art. no.	Outer Box Qty.	Certifications
ABEK1	Organic and Inorganic Gases and Vapors, Acid Gases and Ammonia Class 1	Industry (electrolytic processes, organic and inorganic chemical industry, hydrogen cyanide, hydrogen fluoride...), Agriculture (Agrochemical products...), Maintenance (cleaning with acids, with chlorine, with Ammonia, Industrial Maintenance, Food Maintenance...), Manufacturing (Chemistry, Refrigeration Equipment, household appliances,...), Agriculture and Gardening (organic and inorganic chemicals, acids...).	899174012	80	EN 14387 ABEK1
P3 Active Carbon	(Class 3 Particles). Dusts, Mists and Fumes	Handling of powder substances (cement, wood, stone, fibers, flour...), construction and quarries (dust, sand...), Mining (Chlorates, Cobalt, Copper, Quartz-Silica, Lead...), Industry (fumes, welding, cutting aluminum, steel, oxides, caustic soda, phosphoric acid...), Agriculture and Gardening (Sulfur and Arsenic powder, pesticide spraying...), Maintenance (dust cleaning and sweeping, sanding, very dusty, caustic soda), Work with Asbestos (asbestos).	899 174016	100	EN 143 P3 R
P3	(Class 3 Particles). Dusts, Mists and Fumes	Handling of powdered substances (cement, wood, stone, fibers, flour...), construction and quarries (dust, sand...), Mining (Chlorates, Cobalt, Copper, Quartz-Silica, Lead...), Industry (fumes, welding, cutting aluminum, steel, oxides, caustic soda, phosphoric acid...), Agriculture and Gardening (Sulfur and Arsenic powder, pesticide spraying...), Maintenance (dust cleaning and sweeping, sanding, very dusty environments, caustic soda), Work with Asbestos (asbestos).	899174015	100	EN 143 P3 R
P2	Pre-filter for 2288FA1 and 288FC filters	It provides protection for P2 particles, delays the saturation of the gas filter (prevents the entry of particles and dust) and is interchangeable. It adapts to the gas filter using the 2288RSIN retainer.	899174018	1000	EN 143 P2 R
